

Just a Perfect Day...

Welcome to our first Weddings in Italy supplement. Italy is the perfect location to get married, the weather, wine and food are fantastic and there are other benefits too. The total outlay will be less than it costs to get married back home, and your guests can extend their stay and have an unforgettable holiday.

There are a variety of locations to suit everyone, whether it's your first wedding or your fourth! From a ceremony in a small village church, or on a beautiful beach to a breathtaking 15th-century villa, Italy can offer you all this and more.

This supplement covers everything from the logistics of getting married in Italy to honeymoon ideas. Our advertisers cover a wide area of the peninsula and are there to help you have a truly special day.
